Notes

The Hon Facilities Officer was created on behalf of MCAA in 2001 to assess and monitor facilities in the County
It was discontinued in 2008 when EA took over the responsibility
Since then the responsibilities have changed and facilities are no longer managed within County boundaries.

The Hon Permits secretary was elected by the County Association to manage permits for the County until 2008
The role then became the responsibility of EA who now appoint somebody to the task.
The responsibility then moved to the Regional Council and was delegated to Alan Edwards

The Hon Officials Sec was responsible for all aspects of the management of Technical Officials until 2008
Since then the role has been split into two parts.
EA appoint somebody to help them with the recruitment and development of technical officials.
The Hon Officials Sec is now elected by the County Association to recruit officials for County promotions
In practice Marery Ewington continues in both roles.

The Trophies and Awards role has always been an important task but until recent years was an unelected post.

The County Association has no record of the minutes of an AGM in 2001. If you have them please contact one of the Officers.
